**Two-day National Webinar
on
Demonstration of Online Educational Tools**

31 July-01 August 2020

Introduction

With the pandemic raging across the world, education almost came to a standstill due to closure of academic institutions. India went into lockdown on March 24. Since then, online teaching has become one of the most important part of the lives of students and teachers alike.

However, while it has given the outdated education model of India an opportunity to embrace EdTech, this wedding was not a smooth one. Many teachers felt left out due to their lack of knowledge on using online teaching tools. This has created a sort of reluctance and resistance from teachers to use these virtual methods of teaching.

The webinar is also a growing misconception that EdTech tools are complex. While it is true that many teachers are digital immigrants, it must be noted that students or digital natives are naïve in their online activities. Therefore, the Webinar aims to reduce the digital divide between the students and teachers. The mastery of

Adikavi Nannaya University recognised the need to expose the teachers to various Online Educational Tools so as to enable them to teach online. It was therefore proposed to conduct a webinar for the teachers working in 400+ affiliated college of the University. The webinar is intended to inform the participating teachers of some of the basic and freely available online.

The webinar is planned to contain four sessions, each session demonstrating specific Online tools and various methods of disseminating e-content. The sessions are to address some of the basic issues related to online teaching. The national webinar was planned to be organised over two days (31 July and 01 August 2020) with Dr V Persis, Principal, University College of Engineering as Convener.

While many topics were explained, the major topics include: Screen recording tools, LMS: Google Classroom, Microsoft Teams and content uploading to YouTube.

Dr V Persis
Convener

Objectives of the Program

The primary objectives of the program include:

- To assist teachers in planning online classes.
- To demonstrate various tools for recording video and screen.
- To demonstrate basic LMS functions of Google Classroom and Microsoft Teams.
- To illustrate the various methods of evaluation available online.
- To develop e-content over multiple media platforms such as Zoom and Google Meet.
- To display the uploading processes involved in uploading videos over YouTube.
- To conduct online classroom activities through gamification.

A Two-Day Webinar on Demonstration of Online Educational Tools

"The only thing certain in life is uncertainty."
– Derek Hough

It is in these uncertain times that we need to stand tall yet remain flexible to change. We're heading towards a long-awaited change in the mode of education.

With the onset of the Pandemic, the need to adapt novel modes of education is imminent. However, we understand that this change is not smooth for both teachers and students.

Therefore, as a part of an initiative by Hon'ble Vice Chancellor **Prof M Jagannadha Rao** to make transition to online education smooth, a webinar is arranged to demonstrate some popular tools available online for free.

This webinar will be useful for Teachers, Lecturers and Faculty of all streams.

Note: E-Certificate will be provided to participants upon attaining min. 40% of Marks for Assignments given during the Webinar.
